Emyy: Social Media Posts

Nov 3, 2026 · @Uzair Rasheed

2026 platform rules applied

Every post below uses only real project facts: development by Adelogix, mobile app and website, delivered February 2026, 57 mobile screens, 6 web pages and 2 user roles.

Platform	Rule followed
Instagram	Maximum 5 hashtags per post; plain keywords added to the caption for search
LinkedIn	Hook fits the first 140 characters shown on mobile; 3–5 hashtags; links go in the first comment
Behance	Maximum 10 project tags
Dribbble	At least 10 accurate tags; no contact details or agency promotion in the description

1. LinkedIn

Post as text, or upload the 13 images as a PDF carousel.

Easy English

Finding a local baker, dog walker or cleaner shouldn't feel like a job of its own.

That's the problem Emyy solves. And we built it.

Emyy is a local services marketplace with two sides in one app. Customers find and hire local freelancers. Freelancers get requests, manage bookings and track their earnings. One account can switch between both.

Adelogix Software Technology developed the full product: the mobile app and the website.

What's inside:

- → Search freelancers by category, rating and rate

- → Request one quote, or send a Multiquote to several freelancers at once
- → Chat with text, voice notes and photos
- → Confirm and pay through Stripe
- → Clear booking states, including extra-time requests the customer can accept or reject
- → A freelancer workspace for performance, earnings, availability and reviews

The hardest part?

Two very different users sharing the same quotes, chats and bookings, and both seeing the same status in real time.

- 📱 57 mobile screens
- 🌐 6 web pages
- 👥 2 user roles
- 📅 Delivered February 2026

Building a marketplace or a two-sided app? Let's talk. The full case study link is in the first comment.

Roman English

Local baker, dog walker ya cleaner dhoondna khud ek kaam nahi lagna chahiye.

Emyy yehi problem solve karta hai. Aur humne isay build kiya.

Emyy ek local services marketplace hai, jismein ek hi app ke andar do sides hain. Customers local freelancers dhoond kar hire karte hain. Freelancers requests lete hain, bookings manage karte hain aur apni earnings track karte hain. Ek hi account dono roles mein switch ho sakta hai.

Adelogix Software Technology ne poora product develop kiya: mobile app aur website.

Andar kya hai:

- → Category, rating aur rate ke hisaab se freelancers search
- → Ek quote request, ya Multiquote se kai freelancers ko ek saath request

- → Text, voice notes aur photos ke saath chat
- → Stripe ke zariye confirm aur payment
- → Clear booking states, jismein extra time ki request bhi hai jo customer accept ya reject kar sakta hai
- → Freelancers ke liye workspace: performance, earnings, availability aur reviews

Sab se mushkil hissa?

Do bilkul alag users ko same quotes, chats aur bookings share karwana, aur dono ko same status real time mein dikhana.

- 📱 57 mobile screens
- 🌐 6 web pages
- 👥 2 user roles
- 📅 February 2026 mein deliver hua

Aap bhi marketplace ya two-sided app bana rahe hain? Baat karte hain. Poori case study ka link pehle comment mein hai.

#appdevelopment #marketplaceapp #uiux #mobileapp #adelogix

The keyword line above the hashtags is on purpose. Instagram search now reads captions, so plain keywords help people find the post.

4. Behance

Project title: Emyy | Local Services Marketplace App & Website Development

Tagline: One app to hire local freelancers, or become one.

Easy English

Emyy is a local services marketplace. It connects customers with local freelancers for everyday services such as pet care, home baking, cleaning, repairs and events. Adelogix Software Technology developed the mobile app and the website, delivered in February 2026.

Two roles, one account

At sign-up, people choose to be a customer or a service provider. Switch Role in the profile moves the same account to the other side, with its own home screen and tabs.

For customers

- Search freelancers by category, rating and rate, and save favourites
- Request one quote, or use Multiquote: category, task details, attachments, review
- Chat with text, voice notes and photos, with the quote inside the thread
- Confirm and pay through Stripe, then follow the job in My Bookings

For freelancers

- Home with performance, today's summary and availability
- Answer quote requests and send quotes
- Manage bookings and request extra time, which the customer accepts or rejects
- Track earnings and read reviews

Website

Search, categories, freelancer lists, profiles and quote requests in the browser, with a "Join as a Freelancer" entry point.

Scope

- 57 mobile screens
- 6 web pages
- 2 user roles
- Delivered February 2026

Behance tags (10): Mobile App Development, Marketplace App, Local Services, Freelancer App, Booking App, UI/UX, App Design, Web Development, Product Development, Case Study

Creative fields: UI/UX · Mobile App · Web Development

Roman English

Emyy ek local services marketplace hai. Ye customers ko rozmarra ki services ke liye local freelancers se jorta hai, jaise pet care, home baking, cleaning, repairs aur events. Adelogix Software Technology ne mobile app aur website develop ki, jo February 2026 mein deliver hui.

Do roles, ek account

Sign-up par log customer ya service provider choose karte hain. Profile mein Switch Role se wohi account doosri side par chala jata hai, apni home screen aur tabs ke saath.

Customers ke liye

- Category, rating aur rate se freelancers search karein aur favourites save karein
- Ek quote request karein, ya Multiquote use karein: category, task details, attachments, review
- Text, voice notes aur photos ke saath chat, quote bhi usi thread mein
- Stripe se confirm aur payment, phir My Bookings mein kaam follow karein

Freelancers ke liye

- Home screen par performance, aaj ka summary aur availability
- Quote requests ka jawab aur quote bhejna
- Bookings manage karna aur extra time maangna, jo customer accept ya reject karta hai
- Earnings track karna aur reviews parhna

Website

Browser mein search, categories, freelancer lists, profiles aur quote requests, saath mein "Join as a Freelancer" ka option.

Scope

- 57 mobile screens
- 6 web pages
- 2 user roles
- February 2026 mein deliver hua

5. Dribbble

Shot title: Emyy: Local Services Marketplace App, Customer & Freelancer Roles

Easy English

Emyy is a local services marketplace with two roles in one app. Customers search local freelancers, request one or several quotes, chat with voice notes and photos, and book with Stripe payments. Freelancers manage quote requests, bookings, extra-time requests, earnings and availability. The case study covers 57 mobile screens and 6 web pages for the mobile app and website.

Roman English

Emyy ek local services marketplace hai jismein ek app ke andar do roles hain. Customers local freelancers search karte hain, ek ya kai quotes request karte hain, voice notes aur photos ke saath chat karte hain, aur Stripe payment se booking karte hain. Freelancers quote requests, bookings, extra time ki requests, earnings aur availability manage karte hain. Case study mein mobile app aur website ki 57 mobile screens aur 6 web pages shamil hain.

Dribbble tags (16): marketplace, marketplace app, local services, freelancer app, service booking, booking app, mobile app, ios app, app ui, ux design, chat ui, quote request, dashboard, web app, cyan, light ui

Dribbble's own guidance says not to put links or agency promotion in the description, so they are left out. Set the profile to "Available for Work" instead.

6. X (Twitter) / Threads

Easy English

Finding a local baker, dog walker or cleaner shouldn't take five apps. 🧁🐕🧹

We developed Emyy: one marketplace where customers hire local freelancers and freelancers run their work. Quotes, chat, Stripe booking, earnings.

57 screens · 6 web pages · 2 roles

#AppDevelopment #UIUX

Roman English

Local baker, dog walker ya cleaner dhoondne ke liye paanch apps nahi chahiye honi chahiye. 🧁🐕🧹

Humne Emyy develop kiya: ek marketplace jahan customers local freelancers hire karte hain aur freelancers apna kaam chalate hain. Quotes, chat, Stripe booking, earnings.

57 screens · 6 web pages · 2 roles

#AppDevelopment #UIUX

7. Search keywords, posting tips and sources

Search keywords (SEO, profiles, Google): local services marketplace app, freelancer marketplace app development, service booking app, two-sided marketplace app, customer and freelancer app, quote request app, booking and payment app with Stripe, mobile app development company Pakistan, app development agency Bahawalpur, Adelogix Software Technology

Posting tips

- LinkedIn: upload the 13 images as a PDF carousel if possible; it is the best-performing format there. Put the Behance link in the first comment.
- Instagram: keep to 5 hashtags or fewer; more can limit the post.
- Post on Behance first, then share its link on LinkedIn and Facebook.
- Every post says "developed", not "designed", to match our development-only role on this project.
