USR CRM: Social Media Posts

Nov 4, 2026 · @Uzair Rasheed

2026 platform rules applied

Every post uses only real project facts: redesign and development of USR's web CRM by Adelogix, 2026, 14 desktop screens with matching mobile layouts, and the features shown in the screens.

Platform	Rule followed
Instagram	Maximum 5 hashtags; plain keywords in the caption for search
LinkedIn	Hook fits the first ~140 characters shown on mobile; 3–5 hashtags; links in the first comment
Behance	Maximum 10 project tags
Dribbble	At least 10 accurate tags; no links or agency promotion in the description

Post as text, or upload the 13 images as a PDF carousel.

Easy English

A wedding DJ booking has more moving parts than most people think.

Venue, timings, rig, caterer, entrance song, deposit, invoice. And all of it has to be right on the night.

USR is a UK team of international DJs and music producers. Their CRM is where every one of those details lives. Adelogix Software Technology redesigned it and developed it.

What we changed

The old dashboard was dark and loud, with bright gradient cards and a heavy sidebar. We rebuilt it around a calm stone and sage palette, a slim icon menu and one screen that shows the whole day's business.

What's inside

- → New enquiries with a live quote: packages, extras, equipment and a running total
- → Open enquiry follow-up with email updates, brochures and quotes
- → A full event sheet for every confirmed booking, from timings to the entrance song
- → Completed events with emails, invoices and payment status
- → A calendar colour-coded by DJ
- → Admin and supplier reports: price, cost, profit and payments
- → Users and roles, file uploads, downloads and rig lists

📱 14 desktop screens, each with a matching mobile layout

📅 2026 · Redesign and development

Running a business on spreadsheets and messages? A tool built around how you actually work changes everything. Let's talk. Full case study in the first comment.

Ek wedding DJ booking mein utne parts hote hain jitne log sochte bhi nahi.

Venue, timings, rig, caterer, entrance song, deposit, invoice. Aur raat ko sab kuch bilkul theek hona chahiye.

USR UK ki ek team hai, international DJs aur music producers ki. Un ka CRM woh jagah hai jahan yeh saari details rehti hain. Adelogix Software Technology ne isay redesign aur develop kiya.

Humne kya badla

Purana dashboard dark aur shor wala tha, bright gradient cards aur bhaari sidebar ke saath. Humne isay calm stone aur sage colours, ek slim icon menu aur aisi ek screen ke gird dobara banaya jo poore din ka business dikhati hai.

Andar kya hai

- → Nayi enquiries ke saath live quote: packages, extras, equipment aur running total

- → Open enquiry follow-up: email updates, brochures aur quotes
- → Har confirmed booking ke liye poori event sheet, timings se entrance song tak
- → Completed events: emails, invoices aur payment status
- → DJ ke hisaab se colour-coded calendar
- → Admin aur supplier reports: price, cost, profit aur payments
- → Users aur roles, file uploads, downloads aur rig lists

📱 14 desktop screens, har ek ka matching mobile layout

The keyword line above the hashtags is on purpose: Instagram search reads captions.

4. Behance

Project title: USR CRM | Events & DJ Business CRM Redesign and Web App Development

Tagline: The CRM behind every USR event.

Easy English

USR is a UK team of international DJs and music producers. Their CRM is where staff take enquiries, build quotes, confirm bookings, plan each event and track payments. Adelogix Software Technology redesigned the web app and developed it in 2026, including a responsive mobile layout.

The redesign

The earlier dashboard used a dark theme with saturated gradient cards and a full text sidebar. The redesign keeps the same information but gives it a calmer structure: a warm stone background, one sage accent, a slim icon menu and a dashboard that brings events, DJ analytics, payments, enquiries, a calendar and activity into one view.

Built around the life of an event

- **New enquiry:** client, venue and DJ details, starting package and extras, Add Equipment and Add Notes pop-ups, and a running quote total.
- **Open enquiry:** follow-up with email updates, brochures and quotes.
- **Confirmed event:** a single event sheet with timings, venue access, DJ, caterer, décor, videography, guests, deposit, running order and announcements.
- **Completed event:** emails, invoices and payment status.
- **Reports:** price, cost, extra cost, profit and payments per event, plus a suppliers report.

Supporting tools

- Calendar colour-coded by DJ
- Users, clients, venues, suppliers and packages, with Admin, Staff and Crew roles
- File upload, downloads and rig lists

Responsive

All 14 desktop screens have a matching mobile layout.

Scope

- UI/UX redesign · Web app development · Responsive layout
- Year: 2026

Behance tags (10): CRM, Dashboard Design, Web App, UI/UX, Admin Panel, SaaS, Redesign, Events Management, Product Design, Case Study

Creative fields: UI/UX · Web Design · Interaction Design

Roman English

USR UK ki ek team hai, international DJs aur music producers ki. Un ka CRM woh jagah hai jahan staff enquiries leta hai, quotes banata hai, bookings confirm karta hai, har event plan karta hai aur payments track karta hai. Adelogix Software Technology ne 2026 mein yeh web app redesign aur develop ki, responsive mobile layout ke saath.

Redesign

Purana dashboard dark theme, tez gradient cards aur poori text sidebar ke saath tha. Redesign mein wohi information rakhi gayi, lekin structure calm kar diya gaya: warm stone background, ek sage accent, slim icon menu aur aisa dashboard jo events, DJ analytics, payments, enquiries, calendar aur activity ek hi view mein dikhata hai.

Event ki zindagi ke gird bana

- **Nayi enquiry:** client, venue aur DJ ki details, starting package aur extras, Add Equipment aur Add Notes pop-ups, aur running quote total.
- **Open enquiry:** email updates, brochures aur quotes ke saath follow-up.
- **Confirmed event:** ek hi event sheet jismein timings, venue access, DJ, caterer, décor, videography, guests, deposit, running order aur announcements hain.
- **Completed event:** emails, invoices aur payment status.
- **Reports:** har event ka price, cost, extra cost, profit aur payments, saath mein suppliers report.

Supporting tools

- DJ ke hisaab se colour-coded calendar
- Users, clients, venues, suppliers aur packages, Admin, Staff aur Crew roles ke saath
- File upload, downloads aur rig lists

Responsive

Tamam 14 desktop screens ka matching mobile layout hai.

Scope

- UI/UX redesign · Web app development · Responsive layout
- Saal: 2026

5. Dribbble

Shot title: USR CRM: Events and DJ Business Dashboard Redesign

Easy English

A redesign of the web CRM used by USR, a UK team of international DJs and music producers. The dark, gradient-heavy dashboard became a calm stone and sage interface with a slim icon menu. It covers enquiries with live quotes, confirmed event sheets, completed events with invoicing, a DJ calendar, admin and supplier reports, users and roles, files and rig lists. All 14 desktop screens have a matching mobile layout.

Roman English

USR ke web CRM ka redesign. USR UK ki international DJs aur music producers ki team hai. Dark aur gradient se bhara dashboard ab calm stone aur sage interface hai, slim icon menu ke saath. Ismein live quotes wali enquiries, confirmed event sheets, invoicing ke saath completed events, DJ calendar, admin aur supplier reports, users aur roles, files aur rig lists shamil hain. Tamam 14 desktop screens ka matching mobile layout hai.

Dribbble tags (16): crm, dashboard, admin panel, web app, saas, redesign, before and after, events, booking, invoice, calendar, reports, data table, responsive, sage green, light ui

Dribbble's own guidance says not to put links or agency promotion in the description, so they are left out.

6. X (Twitter) / Threads

Easy English

A DJ booking has more moving parts than you'd think: venue, rig, timings, entrance song, deposit, invoice. 🎧

We redesigned and developed USR's CRM so every one of them lives in one calm workspace, on desktop and mobile.

Before → after in the thread 👇

#UIUX #CRM

Roman English

DJ booking mein soch se zyada parts hote hain: venue, rig, timings, entrance song, deposit, invoice. 🎧

Humne USR ka CRM redesign aur develop kiya taake yeh sab ek calm workspace mein rahe, desktop aur mobile dono par.

7. Search keywords, posting tips and sources

Search keywords (SEO, profiles, Google): CRM redesign case study, events management CRM, DJ booking software, event booking dashboard UI, custom CRM development, admin dashboard redesign, web app UI/UX case study, quote builder UI, responsive web app development, software house Pakistan, web app development company Bahawalpur, Adelogix Software Technology

Posting tips

- Lead with the before/after: it is the strongest part of this project. Use image 03 as the LinkedIn cover or the second Instagram slide.
- LinkedIn: upload the 13 images as a PDF carousel; put the Behance link in the first comment, not in the post.
- Instagram: keep to 5 hashtags or fewer.
- These posts name USR, and some images show their client details. Check USR is happy to be named and shown publicly.
